PART TWO

Information Technology Technical Question

3 mins

In this part of the exam, you will talk about the **Advantages & Disadvantages of the Internet**.

The following ideas will help you.

Advantages

- **Access to Information:** The internet provides vast amounts of information on virtually any topic, making it easier to learn, research, and stay informed.
- **Communication:** It enables instant communication through emails, messaging apps, and video calls, connecting people across the globe.
- **Convenience:** Online shopping, banking, and services have made everyday tasks more convenient and accessible.
- **Education:** E-learning platforms and online courses offer opportunities for education and skill development from anywhere in the world.
- **Entertainment:** Streaming services, online games, and social media provide endless entertainment options.
- **Business Opportunities:** The internet has opened up new markets and business models, allowing companies to reach a global audience and operate more efficiently.

Disadvantages

- **Privacy and Security:** The internet can expose users to privacy breaches, cyberattacks, and identity theft if proper security measures are not taken.
- **Misinformation:** The spread of false or misleading information can lead to confusion and misinformation on important topics.
- **Addiction:** Excessive use of the internet, especially social media and online gaming, can lead to addiction and negatively impact mental health.
- **Digital Divide:** Not everyone has equal access to the internet, leading to disparities in information and opportunities.
- **Cyberbullying:** The anonymity of the internet can lead to harmful behaviours like cyberbullying and online harassment.
- **Impact on Social Skills:** Overreliance on online communication can sometimes hinder face-to-face social interactions and relationships.
