PART TWO

Information Technology Technical Question

3 mins

In this part of the exam, you will talk about **Gaming**. The following ideas will help you.

- Do you play computer games? If so, what is your favourite game and why?
First-Person Shooters (FPS), Action RPGs, Turn-Based RPGs, MMORPGs (Massively Multiplayer Online RPGs)
- What are the advantages and disadvantages of gaming?

Advantages

- **Problem-Solving Skills:** Many games require players to solve problems and think critically.
- **Enhanced Memory and Concentration:** Games often require players to remember details.
- **Community and Friendships:** Online multiplayer games can help players build friendships and join communities with shared interests.
- **Teamwork and Collaboration:** Many games require players to work together to achieve common goals, fostering teamwork skills.
- **Skill Development:** Games can help develop hand-eye coordination, spatial awareness, and strategic thinking.

Disadvantages

- **Sedentary Lifestyle:** Gaming can lead to a lack of physical activity, contributing to health issues like obesity.
- **Eye Strain and Poor Posture:** Extended screen time can cause eye strain, and poor posture.
- **Addiction:** Gaming can become addictive, leading to excessive playtime.
- **Social Isolation:** Excessive gaming can lead to social isolation and reduced interaction with family and friends.
- **Distraction from Studies or Work:** Excessive gaming can interfere with academic performance and professional responsibilities.
- **Sleep Disruption:** Late-night gaming sessions can disrupt sleep patterns, leading to exhaustion and decreased productivity.
- **Too expensive**
